## **MEMO FROM THE "JANITOR'S CLOSET"**

Our Heating/Cooling System is controlled with three separate furnaces in the basement.

### **I. HEATING:**

The in-floor heat system heats the Narthex, hallways, and the H/G office. It is controlled by the water heater in the Janitor's closet in the basement.

The heat for classrooms, Lakeview Room, and Kim's office is controlled by the thermostat in the H/G playroom. This thermostat is programmed for heat from 7:15 a.m. to 5:15 p.m., Monday through Friday only.

Pastor Victor has his own heat thermostat for his office, in his office.

The sanctuary has its own thermostat that is programmed for Sunday's only.

The thermostat in the basement controls basement heat and is programmed for Wednesdays only.

### **II. COOLING:**

The thermostat in Kim's office is for AC ONLY.

There is no AC for H/G classrooms, or the Lakeview Room.

The AC in the sanctuary is programmed for Sundays only.

The AC in the basement is also programmed for Sundays only.

**Remember that either Heat or Cooling takes close to three hours to climb to the required temperature.**

I hope this answers any questions about our system. The unit mounted on the wall in the Narthex is for AC only. It has its own compressor on the roof. This unit is only needed on extremely hot, humid days.

### **PLEASE REMEMBER TO PLAN AHEAD...**

Please fill out the maintenance form outside the office door on the wall or leave a note in my box for any heating/cooling needs. Thank you, *Bob Stephan*.
